

The Kick-off meeting of the project “Innovative Training - Augmented Reality for Green Food” IT-ARGFProject on May 17th 2022

Project IT-ARGF Innovative Training - Augmented Reality for Green Food is an Erasmus plus project funded by the Erasmus Plus Programme of the European Commission. Kick-off meeting was held online on May 17th 2022. The project brings together 5 partners from 5 countries: North Macedonia, Turkey, Greece, Hungary and Spain.

During the kick-off meeting the partners defined technical and operational aspects of the Project Results and related activities. The goal of the meeting was also to define the project and financial management aspects as well as aspects pertaining to Internal Quality, Monitoring & Evaluation, Risk Management.

The project aims at piloting innovative vet curricula providing vet in the field of organic food production with comprehensive competences (knowledge and skills) as well as an innovative technological instrument to enhance biodiversity conservation and performances in the agricultural sector

The project will develop the following Project results:

PR1 - E-learning platform- VET for organic farming

PR2 – Research report for VET educators

PR3 - Augmented Reality Application
